

Online Entry Information

Please read this page over before submitting an online entry.

Please take note of the following rules for online entries.

1. Payment must be made by Visa or Mastercard BEFORE the closing time and date of the trials you are entering. A PDC member will contact you by telephone shortly after your entry is received.
2. You MUST sign a liability waiver as soon as you enter the trials. Please check in at the secretaries table.
3. You MUST present your credit card to the trial secretary at check in so that a manual imprint of your card may be taken. This manual slip is then kept on file for future online entries. NEW
4. Limited entry trials will still close once the limit is reached, so please do not wait until the closing date to enter or you may be disappointed.
5. There is a \$10 annual set up fee that will be charged to your credit card the first time an online entry fee is processed. This fee will be charged again on your credit card with your first online entry that occurs 365 days AFTER your first annual fee has been processed. This is an annual fee. NEW
6. There is a \$5.00 processing charge per emailed entry form for online entries to cover the costs of PDC accepting Visa and Mastercard and for the extra work to handle these entries. This amount is added to the total cost of entry fees for each dog, NOT per class entered as other services do. This amount is NOT refunded with entry fees if you remove the dog from the trial prior to the closing date, nor for bitches who come into season.

That's it! Thank you for using our online entry service and for entering a trial run by Performance Dogs Canada. We appreciate any feedback you may have!
